

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

PUBLICATIONS OF GEORGE FRANCIS ATKINSON

Compiled by Harry M. Fitzpatrick

- The cigarette beetle (*Lasioderma serricorne* Fab.). Journ. Elisha Mitchell Soc., 3: 68-73. 1886.
- Notes on the orchard Scolytus (*Scolytus rugulosus* Ratz.). Journ. Elisha Mitchell Soc. 3: 74, 75. 1886.
- A new trap-door spider. Amer. Nat. 22: 583-594. pls. 23, 24. 1886. Reprinted in Journ. Elisha Mitchell Soc. 4: 16-26. pls. 23, 24. 1887.
- A family of young trap-door spiders. Entomologica Americana 2: 86-92. pl. 4. 1886. Reprinted in Journ. Elisha Mitchell Soc. 4: 26-33. pl. 4. 1887.
- Descriptions of some new trap-door spiders, their nests and food habits. Entomologica Americana 2: 109-137. pl. 5. 1886. Reprinted in Journ. Elisha Mitchell Soc. 4: 33-52 with one plate. 1887.
- A sketch and biography of Nicholas Marcellus Hentz. Journ. Elisha Mitchell Soc. 4: 13-15. 1887.
- Singular adaptation in nest making by an ant, *Cremastogaster lineolata* Say. Amer. Nat. 23: 770, 771. pl. 26. 1887. Reprinted in Journ. Elisha Mitchell Soc. 4: 88, 89, with one plate. 1887.
- Observations on the female form of *Phengodes laticollis* Horn. Amer. Nat. 23: 853-856. 1 text fig. 1887. Reprinted in Journ. Elisha Mitchell Soc. 4: 92-95, with one plate. 1887.
- A remarkable case of phosphorescence in an earthworm. Amer. Nat. 23: 773, 774. 1887. Reprinted in Journ. Elisha Mitchell Soc. 4: 89-91. 1887, with an additional note on the phosphorescence of earthworms.
- Preliminary catalog of the birds of North Carolina, with notes on some of the species. Journ. Elisha Mitchell Soc. 4: 44-87. 1887.
- New instances of protective resemblance in spiders. Journ. Elisha Mitchell Soc. 5: 28-30. 1888.
- Note on the tube-inhabiting spider, *Lycosa fatifera* Hentz. Journ. Elisha Mitchell Soc. 5: 30, 31. 1888.
- Soaring of the turkey vulture (*Cathartes aura*). Journ. Elisha Mitchell Soc. 5: 59-66. 1888.
- Preliminary note on the synonymy of *Entothrix grande* Wolle. Bot. Gaz. 14: 292. 1889.
- Club root of cabbage. Ala. Agr. Exp. Sta. Bull. 9 (Sci. Contr. 1:). 1889.
- Club root of cabbage. S. C. Agr. Exp. Sta. Bull. 4: 42. 1889.
- A preliminary report upon the life history and metamorphoses of a root-gall nematode, *Heterodera radiculicola* (Greeff) Muell., and the injuries caused by it upon the roots of various plants. Ala. Agr. Exp. Sta. Bull. 9. (Sci. Contr. 1: 177-226. pls. 1-6.) 1889. Reprinted in Journ. Elisha Mitchell Soc. 6: 81-130. pls. 1-6. 1890.
- Monograph of the Lemanaceae of the U. S. Annals. of Botany 4: 177-229. pls. 7-9. 1890.
- Club root of cabbage. Amer. Gard. 11: 237. 1890.
- A new root-rot disease of cotton. Ala. Agr. Exp. Sta. Bull. n. ser. 21: 3-II. 1890.
- A new Ramularia on cotton. Bot. Gaz. 15: 166-168. figs. 1-4. 1890.
- Fig rust. Agr. Journ. Montgomery, Ala. pp. 1-3. 1891.
- Some Erysipheae from Carolina and Alabama. Journ. Elisha Mitchell Soc. 7: 61-74. 1 plate and 2 wood cuts. 1891.
- Fig rust. Agr. Journ. Extras, pp. 1-3. 1891.

- Black rust of cotton. A preliminary note. Bot. Gaz. **16**: 61-65. 1891.
- Anthrachnose of cotton. Journ. Mycol. **6**: 173-178. pls. 17, 18. 1891.
- Black rust of cotton. Ala. Agr. Exp. Sta. Bull. **27**: 3-16. pls. 1, 2. 1891.
- Sphaerella gossypina*, n. sp., the perfect stage of *Cercospora gossypina* Cooke. Bull. Torrey Club **18**: 300, 301. pl. 122. 1891.
- On the structure and dimorphism of *Hypocrea tuberiformis*. Bot. Gaz. **16**: 282-285. pl. 25. 1891.
- A new Ravenelia from Alabama. Bot. Gaz. **16**: 313, 314. 1891.
- Botany at the experiment stations. Science n. ser. **20**: 328-330. 1892.
- Some Cercosporae from Alabama. Journ. Elisha Mitchell Soc. **8**: 33-67. 1892.
- The genus Frankia in the United States. Bull. Torrey Club **19**: 171-177. pl. 128. 1892.
- Some diseases of cotton. Ala. Agr. Exp. Sta. Bull. **41**: 1-65. figs. 1-25. 1892.
- Cryptogamic botany and plant pathology. N. Y. Agr. Exp. Sta. (Cornell) Bull. **49**: 306-316. pl. 1 and 5 text figures. 1892.
- A new anthrachnose of the privet. N. Y. Agr. Exp. Sta. (Cornell) Bull. **49**: 306-314. 1892.
- Note on the Cercospora of celery blight. N. Y. Agr. Exp. Sta. (Cornell) Bull. **49**: 314-316. 1892.
- Some leaf blights of cotton. Yellow leaf blight. Red leaf blight. Ala. Agr. Exp. Sta. Bull. **36**: 1-32. 1892.
- On the structure and dimorphism of *Hypocrea tuberiformis*. Proc. Amer. Assoc. Adv. Sci. **40**: 320. 1892.
- An automatic device for rolling culture tubes of nutrient agar-agar. Bot. Gaz. **17**: 154-156. pl. 11. 1892.
- Method of obtaining pure cultures of Pammel's fungus of Texas root rot of cotton. Bot. Gaz. **18**: 17-20. 1893.
- Carnation diseases. Amer. Florist **8**: 720-728. figs. 1-33. 1893.
- On the fungus of celery blight. Amer. Month. Micr. Journ. **14**: 115, with figure. 1893.
- A study of a new fungus. Amer. Month. Micr. Journ. **14**: 121-126. 1 pl., 4 wood cuts 1893.
- Contribution to the biology of the organism causing leguminous tubercles. Bot. Gaz. **18**: 157-166, 226-237, 257-266. pls. 12-15. 1893.
- A new disease of the apple. Agr. Sci. **7**: 348-350. 1893, and Proc. Soc. Prom. Agr. Sci. 14th meeting, 1893.
- Dropsical diseases of plants. Science n. ser. **22**: 323-324. 1893.
- Oedema of apple trees. N. Y. Agr. Exp. Sta. (Cornell) Bull. **61**: 292-302. 1893.
- Oedema of the tomato. N. Y. Agr. Exp. Sta. (Cornell) Bull. **53**: 77-108. pls. 1-8. 1893.
- Unequal segmentation and its significance in the primary division of the embryo of ferns. Bull. Torrey Club **20**: 405-408. 1893.
- Symbiosis in the roots of the Ophioglossaceae. Bull. Torrey Club **20**: 356. 1893.
- Cryptogamic botany and plant pathology. N. Y. Agr. Exp. Sta. (Cornell) Bull. **61**: 299-306. figs. 1-4. 1893.
- The extent of the annulus and the function of the different parts of the sporangium of ferns in the dispersion of spores. Bull. Torrey Club **20**: 435-437. 1893.
- Additional note on fungi of Blowing Rock, N. C. Journ. Elisha Mitchell Soc. **10**: 78. 1893.
- Frost freaks of herbaceous plants. Bot. Gaz. **19**: 40-42. 1894.
- Germination of *Cerebella Paspali*. Bull. Torrey Club **21**: 127. 1894.
- The biology of ferns. Pp. 1-134. N. Y. 1894.
- Additional note on the fungi of Blowing Rock, N. C. Journ. Elisha Mitchell Soc. **10**: 78. 1894.
- A study of a new fungus. Amer. Month. Micr. Journ. **14**: 121-126. 1894.
- Germination of the spores of *Cerebella Paspali*. Bull. Torrey Club **21**: 127, 128. pl. 183. 1894.

- Artificial cultures of an entomogenous fungus. Bot. Gaz. **19**: 129-135. pls. 14-16. 1894.
- Steps toward a revision of the lino-sporous species of North American graminicolous Hypocreaceae. Bull. Torrey Club **21**: 222-225. 1894.
- Olpitrichum, a new genus of mucedinous fungi. Bot. Gaz. **19**: 244, 245. pl. 23. 1894.
- Leaf curl and plum pockets. Contribution to the knowledge of the prunicolous Exoasceae of the United States. N. Y. Agr. Exp. Sta. (Cornell) Bull. **73**: 319-351. pls. 1-20. 1894.
- Preliminary note on the swarm spores of Pythium and Ceratiomyxa. Bot. Gaz. **19**: 375-378. 1894.
- Completozia complens* Lohde. Bot. Gaz. **19**: 467, 468. 1894.
- Notes on some Exoasceae of the United States. Bull. Torrey Club **21**: 372-380. 1894.
- The Exoascaceae of stone fruits. Gard. & For. **7**: 463, 464. 1894.
- Microsphaera densissima* (Schwein.) Peck. Bull. Torrey Club **21**: 528, 529. 1894.
- Intelligence manifested by the swarm-spores of *Rhizophidium globosum* (A. Br.) Schroeter. Bot. Gaz. **19**: 503, 504. 1894.
- Additions to the Erysipheae of Alabama. Journ. Elisha Mitchell Soc. **10**: 74-76. 1894.
- Some Septoriae from Alabama. Journ. Elisha Mitchell Soc. **10**: 76-78. 1894.
- Damping off. N. Y. Agr. Exp. Sta. (Cornell) Bull. **94**: 233-272. pls. 1-6, and one text figure. 1895.
- Some observations on the development of *Colletotrichum lindemuthianum* in artificial cultures. Bot. Gaz. **20**: 305-311. pl. 22. 1895.
- The transformation of sporophyllary to vegetative organs. Woods Hole Biol. Lectures. 1895.
- On the swarm-spores of Pythium and Ceratiomyxa. Proc. Amer. Assoc. Adv. Sci. **290**, **291**. 1895.
- The organisms which collect nitrogen for leguminous plants. The Southern Agriculturist p. 12. Dec. 15, 1895.
- Some tendencies and problems in the evolution of species among parasitic fungi. Trans. Mass. Hort. Soc. **94**-118. 1896.
- Albert N. Prentiss. Bot. Gaz. **21**: 283-289. pl. 19. 1896.
- Albert N. Prentiss. The Cornell Magazine **9**: 19-28. 1896.
- The probable influence of disturbed nutrition on the evolution of the vegetative phase of the sporophyte. Amer. Nat. **30**: 349-357. 1896.
- The preparation of material for general class use. Bot. Gaz. **23**: 372-376. 1897.
- Experimental morphology. Proc. Amer. Assoc. Adv. Sci. **46**: 3-23. 1897.
- Nectria on currant canes. Gard. & For. **10**: 34. 1897.
- Leaf-spot of pear. Gard. & For. **10**: 73, 74. 1897.
- Some fungi from Alabama collected chiefly during the years 1889-1892. Bull. Cornell Univ. (Sci.) **3**: 1-50. 1897.
- Studies and illustrations of mushrooms I. N. Y. Agr. Exp. Sta. (Cornell) Bull. **138**: 337-366. figs. 87-112. 1897.
- Method of teaching botany in the secondary schools. Asa Gray Bull. **6**: 102-106. 1898.
- Mushrooms. For. & Stream **50**: 483-486. 1898.
- [Review of Thaxter, Roland. Contribution towards a monograph of the Laboulbeniaceae. Mem. Amer. Acad. n. ser. **12**: 189-429. 26 plates. 1896.] Science n. ser. **7**: 752, 753. 1898.
- Elementary botany. New York. 1898.
- Report upon some preliminary experiments with the Röntgen rays on plants. Science, n. ser. **7**: 7-13. pl. 1. 1898.
- Studies on some mycelium and fungi from a coal mine. Bot. Gaz. **25**: 107. 1898.
- Studies and illustrations of mushrooms II. N. Y. Agr. Exp. Sta. (Cornell) Bull. **168**. 491-516. figs. 83-97. 1899.
- Studies on reduction in plants. Bot. Gaz. **28**: 1-26. pls. 1-6. 1899.

- Some wood-destroying fungi. Spec. Rep. No. 9, Geol. Surv. La. Sept., 1899. 331-338, pls. 56-62. 1900.
- Studies of American fungi. Mushrooms, edible, poisonous, etc. pp. 1-275, 223 figs. in text, 76 plates, 4 colored. Ithaca, N. Y., Andrus & Church. 1900. 2nd ed. pp. 1-322. 1901.
- Stink horn fungi. The Young Idea 13: 3. 1900.
- Lessons in botany. N. Y. 1900.
- Studies of some shade tree and timber destroying fungi. N. Y. Agr. Exp. Sta. (Cornell) Bull. 193: 199-235. figs. 56-94. 1901.
- President's address to the Cornell chapter of the Sigma Xi, June 8, 1901. Printed by the chapter. 1901.
- Tree-destroying fungi (Polyporus). Amer. Gard. 22: 267, 268. 1901.
- Frost blisters, a peculiar injury to fruit trees—apple, pear, and peach affected. Amer. Gard. 23: 1902.
- Studies of some tree-destroying fungi. Trans. Mass. Hort. Soc. for the year 1901, pp. 109-130. 1902.
- Three new genera of the higher fungi. Bot. Gaz. 34: 36-42. figs. 1-3. 1902.
- Preliminary note on two new genera of Basidiomycetes. Journ. Mycol. 8: 106, 107. 1902.
- Preliminary notes on some new species of fungi. Journ. Mycol. 8: 110-119. 1902.
- A new species of Calostoma. Journ. Mycol. 9: 14-17. 1903.
- A new species of Geaster. Bot. Gaz. 36: 303-306. figs. 1, 2. 1903.
- The genus Harpochytrium in the United States. Ann. Mycol. 1: 479-502. 1903.
- Geaster leptospermus*: a correction. Bot. Gaz. 36: 467. 1903.
- Note on the genus Harpochytrium. Journ. Mycol. 10: 3-8. pl. 72 and text figs. 1904.
- Anthraco-nose of the grape. N. Y. Agr. Exp. Sta. (Cornell) Press Bull. 1. 1904.
- Relation of plants to environment (or plant ecology). Outlines of course of lectures. Ithaca, N. Y. 1904.
- First studies on plant life. 1904.
- A new *Lemanea* from Newfoundland, *Lemanea* (*Sacheria*) *borealis*. Torreyia 4: 26. 1904.
- Mushroom growing for amateurs. N. Y. Agr. Exp. Sta. (Cornell) Bull. 227: 415-424. figs. 151-154. 1905.
- Life history of *Hypocrea alutaceae*. Bot. Gaz. 40: 401-417. pls. 14-16. 1905.
- The genera *Balansia* and *Dothichloe* in the United States with a consideration of their economic importance. Journ. Mycol. 11: 248-267. pls. 81-88. 1905.
- Outlines for the observation of some of the more common fungi. Pl. World 8: 215-222, 245-255. 1905.
- College text book of botany. N. Y. 1905.
- Profits in mushroom culture. Amer. Agriculturist p. 297. March 11, 1905.
- Two new species belonging to *Naucoria* and *Stropharia*. Journ. Mycol. 12: 193, 194. pl. 91. 1906.
- The development of *Agaricus campestris*. Bot. Gaz. 42: 241-264. pls. 7-12. 1906.
- A new *Entoloma* from central Ohio. Journ. Mycol. 12: 236, 237. pl. 9. 1906.
- The influence of mushrooms on the growth of some plants. N. Y. Agr. Exp. Sta. (Cornell) Bull. 240: 215-234. 1906.
- A mushroom parasitic on another mushroom. Pl. World 10: 121-130. figs. 22-24. 1907.
- A parasitic alga, *Rhodochytrium spilanthis* Lagerheim, in North America. Bot. Gaz. 46: 299-301. 1908.
- Note on the occurrence of *Rhodochytrium spilanthis* Lagerheim in North America. Science n. ser. 28: 691, 692. 1908.
- Notes on some new species of fungi from the United States. Ann. Mycol. 6: 54-62. 1908.
- On the identity of *Polyporus applanatus* of Europe and North America. Ann. Mycol. 6: 179-191. pls. 2-4. 1908.
- Observations on *Polyporus lucidus* Leys. and some of its allies from Europe and North America. Bot. Gaz. 46: 321-338. pl. 19. text figs. 1-5. 1908.

- A new poisonous mushroom. Bot. Gaz. 46: 461-463. 1908.
- Some fungus parasites of algae. Bot. Gaz. 48: 321-338. 8 text figures. 1909.
- Some problems in the evolution of the lower fungi. Ann. Mycol. 7: 441-472. text figs. 1-20. 1909.
- Preliminary notes on some new species of Agaricaceae and Clavaria. Ann. Mycol. 7: 365-376. 1909.
- The perfect stage of leaf-spot of pear and quince. Science n. ser. 30: 452. 1909.
- A remarkable Amanita. Bot. Gaz. 48: 283-293. text figs. 1-8. 1909.
- A new edible species of Amanita. Science n. ser. 29: 944. 1909.
- Subterranean fungi [Review of Fischer, Ed. Zur Morphologie der Hypogaeen. Bot. Zeit. 66: 141-168. pl. 6. 1908]. Bot. Gaz. 47: 76-79. 1909.
- A new genus of chytrids [Review of Griggs, R. F. Monochytrium, a new genus of the Chytridiales, its life history and cytology. Ohio Nat. 10: 44-54. pls. 3, 4. 1910]. Bot. Gaz. 49: 311, 312. 1910.
- Motions relating to the rules for nomenclature of the fungi proposed for action at the third international botanical congress at Brussels, 14-22 May, 1910. Ithaca, N. Y. 1910.
- [Review of Buller, A. H. Reginald. Researches on fungi. 1909.] Science n. ser. 31: 420-424. 1910.
- Development and biology of Armillaria [Review of Fischer, C. C. E. On the development of the fructification of *Armillaria mucida* Schrad. Annals of Botany 23: 503-507. pl. 35. figs. 1-7. 1909]. Bot. Gaz. 49: 229. 1910.
- [Review of Clements, Frederic E. The genera of fungi. 1909.] Bot. Gaz. 49: 149-151. 1910.
- The origin and taxonomic value of the veil in Dictyophora and Ithyphallus. Bot. Gaz. 51: 1-20. pls. 1-7 and one text fig. 1911.
- [Review of Tilden, Josephine. Minnesota algae I.] Science n. ser. 34: 82. 1911.
- Cystidia of Coprinus [Review of Buller, A. H. Reginald. Researches on fungi. 1909.] Bot. Gaz. 51: 306, 307. 1911.
- Amanita [Review of Ferry, Rene. Étude sur les Amanites; les Amanites mortelles. *Amanita phalloides*, *A. verna*, et *A. virosa*. Rev. Mycol. suppl. I. 1-96. pls. 1-8. 1911]. Bot. Gaz. 53: 522, 523. 1912.
- The perfect stage of the Ascochyta on the hairy vetch. Bot. Gaz. 54: 537, 538. 1912.
- Gautieria in the eastern United States. Bot. Gaz. 54: 538, 539. 1912.
- The morphology of Zygorhynchus and its relation to the Ascomycetes. Science n. ser. 35: 151. 1912.
- Botany for high schools. N. Y. 1912.
- Homology of the "universal veil" in Agaricus. Mycol. Centralbl. 5: 13-18. pls. 1-3. 1914.
- The development of *Armillaria mellea*. Mycol. Centralbl. 4: 113-121. pls. 1, 2. 1914.
- The development of *Lepiota clypeolaria*. Ann. Mycol. 12: 346-356. pls. 13-16. 1914.
- The development of *Amanitopsis vaginata*. Ann. Mycol. 12: 369-392. pls. 17-19. 1914.
- The development of *Agaricus arvensis* and *A. comtulus*. Amer. Journ. Bot. 1: 3-22. pls. 1, 2. 1914.
- Morphology and development of *Agaricus Rodmani*. Proc. Amer. Phil. Soc. 54: 309-343. pls. 7-13. 1915.
- Phylogeny and relationships in the Ascomycetes. Ann. Mo. Bot. Gard. 2: 315-376. text figs. 1-9. 1915.
- The specific identity of *Phallus impudicus* and *Dictyophora duplicata*. Science n. ser. 41: 171. 1915.
- Origin and development of the lamellae in Coprinus. Bot. Gaz. 61: 89-130. pls. 5-12. 1916.
- The development of *Lepiota cristata* and *L. seminuda*. Mem. N. Y. Bot. Gard. 6: 209-228. pls. 21-26. 1916.

Quadruple hybrids in the F_1 generation from *Oenothera nutans* and *Oe. pycnocarpa* with the F_2 generations, and the back- and inter-crosses. *Genetics* 2: 213-257. text figs. 1-14. 1917.

Six misunderstood species of *Amanita*. *Mem. Torrey Club* 17: 246-252. 1917.

Selected cycles in *Gymnoconia Peckiana*. *Amer. Journ. Bot.* 5: 79-83. 1918.

Charles Horton Peck. *Bot. Gaz.* 65: 103-108, with two portraits. 1918.

Some new species of *Inocybe*. *Amer. Journ. Bot.* 5: 210-218. 1918.

Twin hybrids from crosses of *Oenothera Lamarckiana* and *franciscana* with *Oe. pycnocarpa* in the F_1 and F_2 . *Proc. Amer. Phil. Soc.* 57: 130-143. pls. 1-4. 1918.

The genus *Endogone*. *Brooklyn Bot. Gard. Mem.* 1: 1-17. 1918.

The genus *Galerula* in North America. *Proc. Amer. Phil. Soc.* 57: 357-374. 1918.

Relationships within the *Rhodosporeae*. *Bot. Gaz.* 67: 266-267. 1919.

(With C. W. Edgerton). Preliminary note on a new disease of the cultivated vetch. *Science* n. ser. 26: 385, 386. 1907.

(With C. W. Edgerton.) *Protocoronospora*, a new genus of fungi (preliminary note). *Journ. Mycol.* 13: 185, 186. 1907.

(With W. G. Farlow.) The botanical congress at Brussels. *Science*, n. ser. 32: 104-107. 1910. Same in *Bot. Gaz.* 50: 220-225. 1910.

(With H. von Schrenck.) Some fungi of Blowing Rock, N. C. *Journ. Elisha Mitchell Soc.* 9: 95-107. 1893.

(With Robert Shore.) Mushroom growing for amateurs. *N. Y. Agr. Exp. Sta. (Cornell) Bull.* 227: 415-424. 1905.

(With Bertha Stoneman.) A provisional key to the genera of *Hymenomycetes* (mushrooms, toadstools, etc.). 1-16. Ithaca, N. Y. 1898.

DEPARTMENT OF PLANT PATHOLOGY,
CORNELL UNIVERSITY.
